NURSERY: ALVISO ROAD

MOUNTAIN VIEW

CALIFORNIA, U. S. A.

Our Nursery is located in the center of the famous Santa Clara Valley, on the line of the Southern Pacific Railroad, near Mountain View, about 37 miles south of San Francisco

SEEDS AND BULBS.

Our offering of Seeds and Bulbs represents our own raising under the most favorable climatic conditions, and for vigor and productiveness we believe are unexcelled.

PLANTS.

It is our purpose to offer to the Trade something better than now prevails; our range will of necessity be limited, but the Metzner quality will be high class in every respect and our descriptions without exaggeration or fictitious coloring; based only as we find them to grow under natural conditions in our Nursery.

OUR GERANIUMS, PELARGONIUMS, PETUNIAS, GLADIOLI,

are not to be classed with the general run of present day varieties. We claim that in point of size of flowers, and general constitution, they are unexcelled.

COLORINGS.

In this respect our range is extraordinary. Every shade and hue is to be found. Many of these unique and entirely new.

INSTRUCTIONS for ordering, terms, conditions, etc.

Place your orders early.

Write name and address distinctly, always give shipping instructions. It is a good plan to enclose a printed card unless using a printed letter-head when ordering.

Goods will be sent C. O. D. when desired if 25% of the purchase price accompanies order. No charge for packing, boxing, or delivery to Express or Freight Depot at Mountain View, Calif. Our terms are Net Cash.

Responsible Firms can arrange to have quantity orders charged on Open Account.

Remit by Post Office Money Orders, Express Money Orders, or Bank Drafts.

Do not send Personal Checks.

Owing to recent Postal Inspection laws which occasion delay in delivery, we recommend the shipment of plants by express.

NON-WARRANTY. We pride ourselves on the high class Plants, Bulbs or Seeds we offer to the trade. We take extra pains in filling orders and use every care to send plants absolutely healthy, true to name and color; however, we give no warranty, implied or expressed as to quality, productiveness, color or description when sending our Plants, Seeds, or Bulbs. All orders are accepted and filled subject to these conditions only.

CLAIMS. To receive consideration, all claims must be made immediately on receipt of goods.

We will gladly correct any loss caused by our neglect, but assume no responsibility for damage in transit.

POLICY. We want your orders, present and future. It will be our every effort to please and satisfy you, and you may rest assured of liberal treatment.

METZNER FLORAL COMPANY,

Mountain View, California.

INTRODUCTORY

We undertook to issue a booklet, describing the marvelous display of seedling Gladioli, originating at our nursery, Mountain View, California, and which was awarded the Grand Prize at the Panama-Pacific International Exposition.

We find this cannot be done. Many rare varieties displayed, reproduce themselves slowly, and these bulbs, in quantity, can not be promised for several years.

It is not feasible from a commercial view, to continue the development of hundreds of seedlings even though showing extreme merit.

Gladioli experts and enthusiasts have repeatedly assured us that our strain, which we designate as "Metzner's Grand Prize Strain" is far in advance, in point of vigor, size and wonderful colorings, of the best varieties now generally offered for sale.

If you were not permitted to see our Exhibit at the Panama-Pacific International Exposition, picture if you can, GLADIOLI, standing, unsupported, from five to seven feet tall, many throwing three and four lateral shoots, producing flower spikes which could be cut over three feet in length, without touching the foliage.

Individual flowers, ranging from 4½ to 6½ inches in diameter, with 6 to 14 perfect flowers open at one time. An array of solid color tones or a blending of delicate tints, rivalling orchids in their richness. This is but a faint conception of the wonderful Gladioli display which won the admiration of thousands of flower lovers and brought us congratulations from Gladioli enthusiasts and specialists; a revelation to all as to the possibilities of this grand flower.

We know that buyers will obtain for their investment the World's best and latest in Gladioli, and whether for Home display or Commercial purpose, receive full value and satisfaction. As far as possible, we will send bulbs to conform to color taste, if so expressed when ordering, at all events the colors will be distinct and cover a broad range.

Our offering this season, must of necessity, be limited. Our bulbs are now in process of curing and can be delivered at once, or as requested.

Orders will be filled in rotation and early buyers will have the advantage of a broader range from which our selections are made.

To prospective buyers, who unfortunately could not see our display, we feel we can say in all sincerity and truthfulness, that its equal for quality and grandeur has never been displayed elsewhere, because its equal is not in existence.

You will be more than pleased with your investment and enjoy as thousands have the wondrous beauty of "Metzner's Grand Prize Gladioli," a demonstration of what can be accomplished in floral development.

Remember also our grand display of Giant Ruffled Single Petunias, our choice bedding Geraniums, Pelargoniums and Carnations which were awarded special medals. We produce and offer for sale only High Class Plants and Seeds, developed at our own nursery, and believe there are enough flower lovers who aim to cultivate the best that grows, to warrant us to continue doing so.

May we not enlist you on our roll of select customers?

Very sincerely,

METZNER FLORAL COMPANY,

Mountain View, California.

GLADIOLI

To introduce this **NEW STRAIN** to Flower Lovers, we now offer for this season, in mixture only, strong, vigorous, selected bulbs as follows:
